Aerospace Optics adds Steven Edwards as product development manager

FORT WORTH, TEXAS, FEBRUARY 26, 2009 – Aerospace Optics Inc. is pleased to announce that Steven A. Edwards has joined the company as product development manager.

Previously, Edwards was a systems engineering manager and a technical program manager for EFW Inc., a full-service electronics supplier to the defense industry. He has also served as group project engineer for Nissan Research and Development Inc.

“Steve’s background in the avionics industry is very well-suited to support our ongoing product development efforts at Aerospace Optics. Steve brings demonstrated success in the areas of innovation and the development of advanced solutions for man-machine interface to our company, combined with a proactive project management style,” stated Loren Jensen, president and COO of Aerospace Optics. “I am confident Steve will provide additional strength to our management team.”

Aerospace Optics is one of the world’s premier manufacturers of LED pushbutton switches, indicators and electro-optical, programmable displays for avionics, aerospace and defense applications. Located in Fort Worth, Texas, Aerospace Optics is an AS9100:2001 certified supplier. For more information on Aerospace Optics or its complete line of VIVISUN products, visit www.vivisun.com or call 1-888-848-4786.
